

Interstate Auto Shipping

- ❖ *Growing up in the transportation industry and learning the lessons of driving and fixing trucks for a living, our Chairman and CEO went into business for himself in 1998 at just 17 years old with one rollback tow truck in Philadelphia, PA. With a strong work ethic and a passion for providing quality service, he built the foundation of what would become a trusted name in the transportation and logistics industry. Over the years, we have expanded our operations, continuously evolving to meet the ever-changing needs of our customers across all divisions. Our commitment to customer satisfaction, safety, technology, and innovation has positioned us as an industry leader, trusted by businesses and individuals alike.*
